EXPERIENCE: **Ambassadors Group, Inc: Responsive Web Developer/Webmaster**   **November 2014-April 2015**
- Responsible for charting and implementing the company's transition to the mobile landscape
- Fully integrated the utilization of Bootstrap 3, LESS, cross-browser compatible scripts and Responsive CSS media queries into the company's web development strategy
- Served as the liaison between technology team and marketing/creative development team, ensuring a smooth and mutually informed transition to a truly "mobile-first" design policy
- Worked with technology department in order to implement a responsive approach to the company's highest-traffic websites, creating a seamless and rewarding customer experience

Freelance Developer   **August 2014-Present**
- Currently developing a single-page social web application using AngularJS and PHP/MySQL
- Developed PHP/Javascript backend automation utility scripts for a small business owner, allowing him to dramatically reduce the time spent on shipping his company's products

United States Air Force: Tactical Airlift Pilot, Chief of Ground Training   **June 2007-July 2014**
- Second in Command of large military transport aircraft, the Lockheed Martin C-130E/H Hercules
- Served two tours of duty performing tactical combat missions in support of Operation Iraqi Freedom and Operation New Dawn
- In addition to flying duties, served as Unit Chief of Ground Training, Unit Security Manager, Privacy Act Representative, Chief of Official Records and Unit OPSEC (Operations Security) Coordinator

U.S. Air Force Academy Cyber Defense Team: Member   **August 2005-May 2006**
- Competed in annual NSA-Sponsored Cyber Defense Exercise (CDX)
- Designed, built, maintained and defended networks against intrusions by NSA's Red Cell Aggressor Team

AWARDS:
- Dean's Honor List - U.S. Air Force Academy Class of 2007
- Top Academic Performer - Air And Space Basic Course, Maxwell Air Force Base, Alabama

SKILLS:
- Highly proficient with HTML5, CSS3, LESS, Bootstrap, Javascript (including AngularJS, AJAX and JQuery), PHP and SQL

- Experience with many other languages including Java, C/C++, Perl, Python, Ada and others
- Knowledge of enabling web technologies including Git, Agile Development and Test-Driven Development
- Thorough understanding of OOP, Networking, Database and Web Development concepts
- Very fast learner and and motivated coder. I love building things that help people

TRAININGS:
- Certified INFOSEC (Information Security) Professional - the NSA and Committee on National Security Systems
- Certified Systems Administrator, Entry Level - the NSA and Committee on National Security Systems
- Top Secret U.S. Security Clearance
